

# EnduroShield

Up to 90% Less Cleaning

## Radisson Hotel & Suites, Sydney Australia

The 4½ star boutique hotel in central Sydney underwent major interior renovations in 2009. Radisson Hotel chose EnduroShield Protective Coating for Glass to help maintain the sleek, modern and clean look of its suites and reduce cleaning time by up 90%.

As part of the refit of the Radisson Hotel & Suites Sydney, all new shower screens have been protected with EnduroShield for Glass. EnduroShield will not only provide a long-term protective solution to the international hotel chain's investment, but will also assist in reducing maintenance costs by minimising cleaning time and use of chemical cleaning products.

## The Concorde Hotel, Kuala Lumpur Malaysia

The Concorde Hotel, Kuala Lumpur is an international 4-star hotel located in the golden triangle of Kuala Lumpur, amidst a bustling business district and major tourist attractions.

The hotel prides itself on clean line elegance and modern amenities for the convenience and comfort of discerning guests. To date approximately 52 of the shower screens in the hotel have been treated with EnduroShield for Glass to protect against mineral deposits from frequent water use, shampoo chemicals, soaps, body fats, and rigorous scrubbing with harsh cleaners. The application will be completed stage by stage and management is now considering specifying EnduroShield for glass skylights throughout the hotel.

## The Holiday Inn, Toronto Downtown Canada

The Holiday Inn Toronto Downtown Centre is the largest Holiday Inn Hotel in all of Canada and has been recently refurbished. The hotel features luxurious guest rooms and suites offering the finest in accommodation, and is conveniently located near major attractions and shopping venues as well as the business and financial districts.

The Holiday Inn is committed to providing high quality finishes in order to maintain an excellent reputation among travellers and business guests. As part of this commitment, EnduroShield has been utilised on the shower glass of all 401 rooms in the hotel. The EnduroShield coating will assist in protecting the surface by sealing the porosity of the glass. It will also protect against staining, etching and general deterioration from soap scum.

By minimising the cleaning time for each shower screen, ongoing maintenance costs will be measurably reduced, and importantly, the shower screens will remain in premium condition for each new guest.

The EnduroShield coating will assist in protecting the glazed surfaces by sealing the porosity of the glass

EnduroShield was specified for shower screens at The Holiday Inn Toronto Downtown two years before the renovation project was completed.
