

EnduroShield

Up to 90% Less Cleaning

RYDGES WORLD SQUARE HOTEL, SYDNEY AUSTRALIA

Sydney is one of the top 10 travel destinations in the world and is home to award winning hotel Rydges World Square, located in the heart of the CBD.

The hotel lobby and lounge are a popular meeting place for dining, drinking and conversation, featuring a circle of 30 bay windows that look down on a spacious outdoor area known as The Bull Ring, so called because of a very large, brass bull sculpture which adorns the central court.

Application

The housekeeping team at Rydges World Square had noticed maintenance issues with the feature glass windows. Due to the configuration of the circular court creating a wind tunnel effect, dust and dirt are continually spread throughout the area so that even with frequent cleaning, the windows remained unclear.

The solution was EnduroShield® Protective Coating for Glass. EnduroShield professional applicators were contracted to give the glass a thorough professional clean and to then treat the glass surface with EnduroShield.

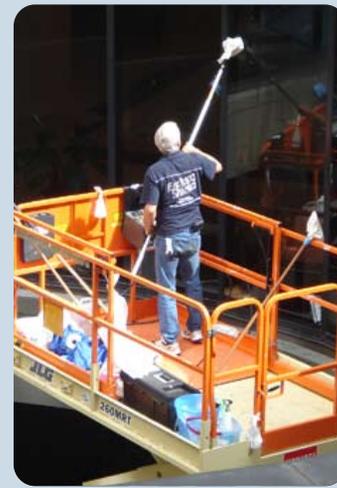

EnduroShield® is a non-stick, permanent, protective coating which protects all glass surfaces against staining and etching, making surfaces up to 90% easier to clean.

Applied to the 30 bay windows at Rydges World Square, EnduroShield® ensures the glass stays cleaner for longer, enhancing the view and significantly reducing cleaning time.

The Result

The application of EnduroShield® has resulted in glass that is now much easier to maintain and that will also resist staining into the future. The product is environmentally friendly and professional application is backed by a written warranty.

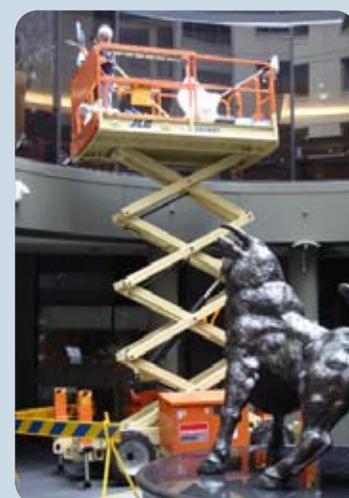

Rydges Management was so happy with the results that EnduroShield® was again chosen to protect the glass windows and balustrades in an extensive restaurant and bar refurbishment that has just been completed.

“EnduroShield® for Glass was chosen by Rydges World Square to reduce maintenance and maximise the views from our featured areas. We are satisfied with the outcome and happy to recommend it to others.”
Sarah Young, Executive Housekeeper, Rydges”

EnduroShield ensures glass stays cleaner for longer, enhancing the view and significantly reducing cleaning time.
