

EnduroShield

Up to 90% Less Cleaning

BRITISH EMBASSY BANGKOK, THAILAND

In February 2009, the British Embassy Bangkok completed the major task of constructing 24 new residences on site to accommodate expatriate staff. The residences include a mix of 2, 3 & 4 bedroom apartments and homes. The residential complex is supported with leisure areas including a club with commercial kitchen, swimming pool and gymnasium.

To assist in reducing on going maintenance and cleaning costs, and to preserve the integrity of the surfaces throughout the complex, EnduroShield™ treatment was specified for key areas within the residences and common areas.

Application – The complete range of EnduroShield™ products - Glass, Tile & Grout and Stainless Steel - were professionally applied.

Treated areas included the following:

- Club Area
 - External windows
 - Glass balustrades
 - All stainless steel surfaces in the kitchen
 - All wall and floor tiles
- Swimming Pool Area
 - Showers - All wall and floor tiles
 - Toilets - Mirrors, basins, toilets, shelves, floor tiles
- Gymnasium
 - Internal windows
 - Mirrors
 - Glass doors
- Residences
 - Bathrooms
 - Floor tiles, hand basins, mirrors, toilets, glass shelving, shower screens, wall tiles in showers
 - Kitchens
 - Floor tiles, granite bench tops, glass splash backs, sinks
 - Laundries
 - Granite bench tops, floor tiles
 - All mirrors throughout residences
 - 2 Storey Apartments/Homes
 - Glass balustrading on stairs and landings
 - Second level internal windows
 - Atrium windows (external)
 - Stainless steel elevators, internal and external SS surfaces

The Result

The application of EnduroShield™ has resulted in a complex that is now much easier to clean and maintain. Importantly it will continue to look good long into the future. The product is environmentally friendly and is backed by a full 3 year warranty.
