SWISS GriP Anti-Slip is a premium quality non-slip coating. Our coatings are developed and manufactured by GriP Safety Coatings AG in Switzerland and are used world-wide since 1995.

Swiss GriP is certified by independent institutions including TÜV, British Satra, Australian CSIRO, Swiss Empa and Brazilian Falcao Bauer. Therefore, our coatings are used by leading sanitary manufacturers, hotel groups, hospitals and aged care facilities.

- TÜV, DIN 51097 and DIN 51130: Class C and R11
- Satra, BS 7976 (Wet pendulum): SRV: 50, Low Slip Potential
- CSIRO, AS 4596: P5 and P4.

- **Swiss-Made** - Proudly developed and manufactured in Switzerland
- **Solvent-free** - Dual component, water-based polyurethane system
- **UV-stable** - Transparent coating for interior and exterior applications
- **Durable** - Excellent chemical resistance
- **Active adhesion** - acrylics, steel-enamel, solid surface, gel-coat, tiles, ceramics marble, and glass. Use in combination with Swiss GriP Sopro Primer for high traffic areas.
