

CriSamar® BELT, an acid-etched decorated or plain band on a transparent glass. It performs uniquely to let light transmittance and vision through (on the transparent areas) while hiding fingerprints and offering privacy (satinated area).

4 Designs:

Two options each: in 100/225 cm and 100/321 cm formats.

Applications:

Doors, partitions, windows, shower screens and walls, furniture (such as kitchen cupboard doors).

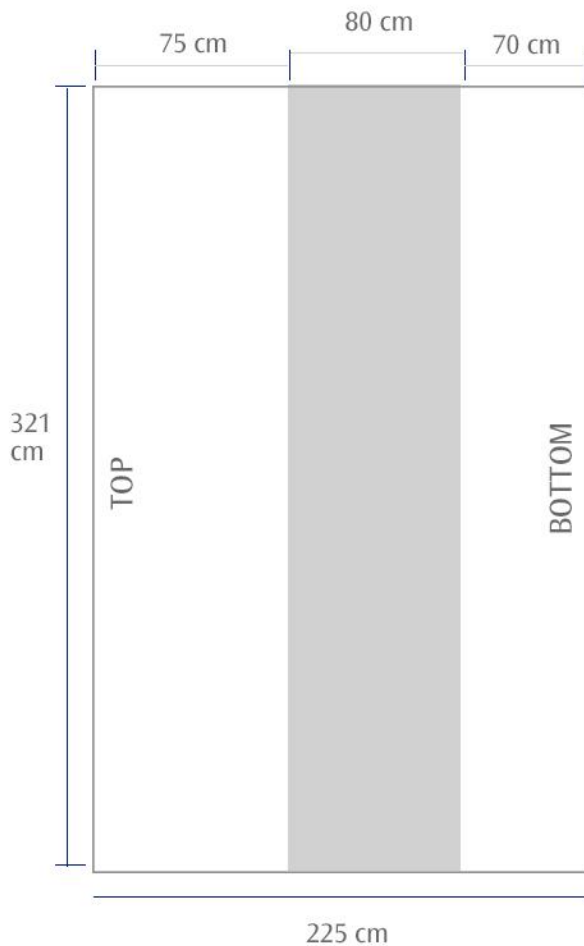

Advantages:

- Very high resistance to marks and dirt, which are less visible and easier to clean.
- Consistent quality guaranteed.
- Easy transformation: all mechanical and heat processes of glass.
- High capacity production.
- SEVASA has Environmental ISO 14001 and Quality ISO 9001 certifications.
